Letter from Joe

After more than 50 years in the cattle business – and over 75 years of owning cattle – I’m proud to share the complete dispersal of the 7P Ranch herd. What started as a 4-H project back in 1951 grew into a lifetime of raising cattle I truly believe in – cattle built to work, last, and make a difference for the folks who raise them. From the very beginning, my goal has been simple: raise cattle with sound structure, strong mothers, and genetics that perform in the real world. Over the years, it has been a privilege to see 7P cattle go to work in herds across Texas and beyond, and to know that the breeding decisions we made have helped other ranchers build their programs. Contributing to the progress of the Simmental and SimBrah breeds has always been a point of pride for me.

This dispersal includes the foundation of our program – females that helped build the herd and the replacement heifers, bulls and calves to continue raising the bar. Every animal represents decades of careful selection, hard work, and a love for this business that has never faded.

Equally important are the people I’ve met along the way – customers, fellow breeders, and friends who trusted our program and our cattle. Your support has made it possible for me to spend a lifetime doing what I love, and that is something I will never take for granted.

I’m proud of what 7P Ranch has built over the years, and I know these cattle will continue to do what they were bred to do – perform, last, and make their new owners proud. Thank you for being part of this story.

As I have always said, being in the cow business has kept my “quality of living very low” (monetarily), but in actuality my life has been blessed with wonderful faith, family, friends and the gift of being able to live my passion and dream. As much as I like to “jerk chains,” I guess, I am a pretty “rich” man.

www.dvauction.com**TERMS OF SALE:**

Terms of sale are cash or check to be paid in full at the conclusion of the sale. All sales are final. Cattle sell under the standard terms and conditions of the American Simmental Association for a dispersal sale. Pregnancy status was confirmed by a licensed veterinarian during the first week of April. All breeding information is provided to the best of our knowledge, and no guarantees are made on pregnancy status.

SALE CONDITIONS:

Each animal will be sold to the highest bidder with the auctioneer settling any disputes as to bids. Each animal will become the property of the buyer as soon as sold. All persons attending the sale do so at their own risk. 7P Ranch, nor any person connected with the sale, assumes liability, legal or otherwise, for any accidents which may occur.

LIVESTOCK TRANSPORTATION:

Lathrop Trucking, Randy Lathrop 847-910-4673

Travis Brown 254-485-2440

HERD HEALTH:

All cattle will sell with proper interstate health papers. All females were calfhood vaccinated. All sale cattle have been vaccinated with IBR, P13, Vibrio Lepto 5, and eight-way black-leg. All bulls have been fertility checked and all heifers are reproduction tract examined. All sell guaranteed breeders. All eligible cattle will be brucellosis tested.

BULL CARE:

Your yearling bull is a major investment. Experience has shown us that yearling bulls can function very well even in harsh environments. You can count on them to breed 15-25 females depending on the conditions. We have the following recommendations:

- If possible, run your yearling bulls separately from older bulls during their first breeding season.
- Make sure that your bulls gain weight in the fall after the breeding season before winter.
- Feed energy supplementation (grain) beyond simply grass and protein to your yearling bulls. Avoid feeding the young bulls in the same pasture with older or horned bulls.

From the Sale Manager

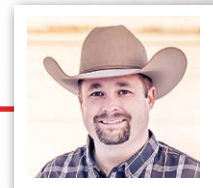

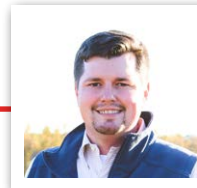

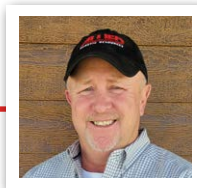

On behalf of Joe, the entire Prudhome family and all of us at Allied Genetic Resources I want to say thank you to everyone who has been friends of and supported the 7P program for the past 50 plus years. What a legacy of performance and customer care, as this family sailed with purpose through every possible hill and valley that the cattle business put before them over the years. May 9 we will offer the culmination of that life's work and the entirety of the 7P cow herd and production. These genetics are designed with a plan to work for you in any environment so you don't have to work for them.

Mixed emotions is the best way to describe everyone's emotions as we push toward the sale date and I can promise that the decision to disperse was not an easy one for the Prudhomme's. Feelings of celebration for a family and program that has done so much for the Simmental business and customers for so many years, right alongside feelings of loss as we think about the ranch moving forward without registered cattle, sales and the family that made it what it is today. Joe, Mary along with their children and now grandchildren grew up the right way here, with a commitment to hard work, pride in accomplishment and shared success. That kind of team effort is what it takes to build great programs and great families.

I first met Joe at the Texas Simmental Assn. Annual Meeting, I think it was 2002? We played golf in their Association outing that day and I learned a few important things about Joe. One he was competitive and regularly outspoken, despite his quiet-natured, humble first impression. More importantly however, it was obvious that he was and is one of a kind when it came to his humanity. This was no ordinary physician turned cattle rancher, he was a good human first and everything else second. He told stories the entire time we played including one about the origin of his set of King Cobra golf clubs. He told us that he had a patient come in with a ruptured appendix that had to come out. That patient had no way to pay for procedure, so Joe did the surgery at no cost and simply asked him to pay the nurses and others who assisted when he could. The man just felt that he should do something for Dr. Prudhomme's help saving him so he gave him those golf clubs. Joe went on to complain about how much he did not like the clubs and that they were the primary reason for any poor shot that might result during the day. When I asked him why he still played with them, he just said something to the effect of "if I run into him out here and I'm not playing with the clubs he gave me, I wouldn't know what to say and he might think I wasn't grateful". That story really told me just about everything I needed to know about Joe and who he was every day of his life.

For more stories and the opportunity to benefit from so many years of 7P Ranch committed effort, just plan to be with us May 9. Everyone there has shared in the history and is willing to help with what you need, just like they always have been.

Sincerely,
Marty Ropp, Corey Wilkins and Jared Murnin

AMERICA'S COW

**STAND STRONG
SIMMENTAL**

The **Simmental** cow can handle any environment.

She's built to last in heat, fescue or high altitudes. Thanks to the breed's built-in adaptability, you can match Simmental genetics to your environment; **SimAngus™**, **SimAngus HT**, **Simbrah** or proven Simmental genetics.

Meet America's all-purpose cow with the heterosis boost commercial cattlemen need.
